

Get Password Access to the Excel- VB Code in (*& a Reseller Licence to Keep 100% You Make Selling*) my Excel-VB Income & Expense Manager™ Software

By Tayo K. Solagbade – www.tayosolagbade.com

On Wednesday 12th December 2018, I will be using THIS app for the Basic Introduction to Excel-VB Programming training during the workshop for members on Wednesday 12th December 2018. Attendees will be able to see the back end code that drives the various interfaces in the app. They will be asked to write and run bits of code taken from the app, in blank workbooks they will open on their laptops. The purpose is to use this real life app to give learners an Experiential Coaching experience that they can draw on to use AFTER the event, in their own work.

For those interested, an opportunity to OWN this application, with CODE REMOVED so they can study it, is provided. See details below.

Pay N2.5k (I sell it for N5k) - and get a specially branded version of this app with your name/details included as Authorized Reseller (and password access to the code).

WHY THIS OFFER?

I want attendees/members to have something they can SHOW others. Something that will convince them learning Excel-VB driven Software Development is

WORTH it. Giving you one on my most popular and oldest products to sell, with access to the code and support to find and win over buyers will boost your confidence that you are on the right path.

I intend to issue a RESELLER license to EACH club member who takes up this offer, so that s/he can take a REAL LIFE custom Excel-VB already PROVEN to be useful, to the market, to try his/her hands at making money selling it, like I did between 2007 to 2009 (going door to door) and like I do today from my website.

To make the coaching experience in the Workshop tomorrow as real as possible, I will be opening up the VISUAL BASIC INTEGRATED DEVELOPMENT ENVIRONMENT (IDE) in MS Excel, with the password, to show attendees the code that runs this app.

You will be guided to re-rewrite portions of the code in your own NEW workbook to see how they work. The purpose is to give you a real life feel for how VB code can be used to transform a simple Excel Workbook into a smart software application at a basic level.

For those members who take this up, I will provide 100% technical support to them, for ANY sales they make e.g. customizing the app for the client/buyer they win, providing after sales support, giving them tips on how to market the app to potential buyers (including how to find people most likely to buy) etc.

All of this will be done ANONYMOUSLY i.e. your buyers will relate with you, and you will tell me what you need to respond to them, while I guide you in doing it etc.

Post "YES - BCCT" in the Excel Heaven VB Automation Club Group on WhatsApp to claim this offer.

Other benefits you get when you take up this offer

1. As a member of my club, in addition to video and text home study tutorials on Excel-VB Coding, I will email to your inbox, you'll also enjoy a 50% lifetime discount to get my support towards helping you create and sell your own custom Excel workbooks.

2. Members who sign up for the above offer will also get my Audio Podcast titled "Make Money Selling Your Spreadsheet Workbook" emailed to them

ABOUT THE INCOME & EXPENSE MANAGER

This app was originally built (in 2006) for small business centres, so I started out calling it "**Business Centre Cash flow Tracker (BCCT)**".

Then I noticed independent consultants were purchasing it for personal use, so I began calling it Income & Expense Manager. In 2008, I began using it to track MY OWN inflow and outflow of cash, to demonstrate to potential buyers how it works.

From 2007 TO 2009, I actively sold this app via door to door pavement pounding on CDROM for N2, 500 (approx. \$15 USD). Between 21st Sept. '07 to 28th Nov. '07 (approx. 42 working days, I sold N41, 000 worth of this app. That effort eventually led me to meet clients who hired me to build other apps for fees ranging from N45k to N200k!

Click the link below to read the full story about how I use this app to build the foundation for my Excel Heaven brand to what it is today.

Tayo. Lagos – Nigeria @19:34 on 11th Dec. 2018

Below: A one page printable PDF flyer I used back in 2008 to market my nifty Excel-VB Cash Inflow & Outflow Tracker app, to clients/buyers. The app was originally built for small business centres, so I started out calling it "Business Centre Cashflow Tracker(BCCT)". Then I noticed independent consultants were purchasing it for personal use, so I began calling it Income & Expense Manager. In 2008, I began using it to track MY OWN inflow and outflow of cash, to demonstrate to potential buyers, how it works. **See JPEG image versions of reports generated from my 2008 data (with charts).** Very useful, and easy to use app...AND THE LOWEST PRICED I EVER OFFERED FOR SALE: **From 2007 TO 2009, I actively sold it via door to door pavement pounding on CDROM for N2,500 (approx. \$15 USD).** Between 21st Sept '07 to 28th Nov '07 (approx. 42 working days, I sold N41,000 worth of this app. That effort eventually led me to meet clients who hired me to build other apps for fees ranging from N45k to N200k! Today, I no longer sell the app that way (obviously!), but I still offer it for sale as an unlimited use version for N5,000 (approx. \$30 USD).

Apart from cash to bank payment, you can pay by (1) Sending me MTN airtime credit or (2) Ordering 3 physical copies of my latest paperback book "Kukuru Danger" from www.lulu.com/sdapproducts for delivery as a gift, to an address I will supply. Contact me via www.tayosolagbade.com for details.

Income & Expense Manager 1.1	Product	The Income & Expense Manager 1.0 was originally built in August 2006 for business center owners who want to know if they are really making PROFITS - but is actually useful for anyone keen to keep an eye on/track (and store historical records of) his/her income AND expenses. Enables even a PC/Excel novice input ONE year's worth of (paper) records into a ready-to-use spreadsheet using an automated, floating data entry form - at 60 rows per day for 365 days. It also automatically computes entries into daily, weekly, monthly, annual (tabulated, charted, and printable) summaries of income, expenses etc. The upgrade version started selling on 6th September 2007. Past buyers got FREE upgrades. NB: Special version with Stock Movement Tracking(SMT) feature available.	N2,500.00
<i>NOTE: Over N41,000.00 worth of sales of this application were recorded between 21st Sept. 07 and 28th Nov. 07 (approx. 42 working days)!</i>			

Below is a detailed listing of the most recent buyers of the above mentioned application. ALL of them got version 1.1 - and are eligible for FREE upgrades. To purchase your copy of this popular application, OR become a RESELLER, call Tayo on 0803-302-1263 for details.

About Tayo K. Solagbade

As a Location Independent Multipreneur travelling slowly across West Africa, Tayo's unique ability as a bilingual service provider enables him relate successfully with clients/associates in English/French speaking societies e.g. Cameroon, Ghana, Benin, and Nigeria.

He offers a unique range of Performance improvement talks, seminars and coaching programs for farmer groups, writers, clubs, parents and alumni associations - as well as persons in paid employment.

Since 2002, he has earned multiple streams of income providing individuals and organizations with personal development training and coaching, custom MS Excel-VB solutions, web marketing systems/web hosting, freelance writing services, and best practice extension support services (for farm business owners).

Tayo is the author of the Self-Development (SD) Bible™ & Livestock Feed Formulation Handbook at www.lulu.com/sdaproducts.

Tayo has delivered talks/papers to audiences in various groups and organizations, including the Centre for Management Development, University of Lagos, Corona Schools Trust Council (and all 6 Lagos branches), Adrao International Schools, Christ Baptist Church, Volunteer Corps, Tantalisers Fast Foods and others. In 2012 he was the invited Guest Speaker at the Centre for Entrepreneurship Development's Annual Semester Entrepreneurial Lecture at Yaba College of Technology in Lagos.

In a previous life, before leaving to become self-employed, Tayo served for seven years (October 1994 to December 2001) as a high performing manager in

Guinness Nigeria. He rose from Shift Brewer to Training & Technical Development Manager, and later acted in senior roles as Production Manager and Technical Manager.

When he's not amazing clients with his superhuman skills (wink), Tayo works as the creative force behind his Daily Self-Development Nuggets blog - on which he also publishes his Weekly Performance Improvement IDEAS (PII) newsletter.

He is an Associate Member of the UK based Institute & Guild of Brewing, a 1997 National Finalist of the Nigerian Institute of Management's (NIM) Young Managers' competition, a Certified Psychometric Test Administrator for Psytech UK, innovator of Spontaneous Coaching for Self-Development™ (SCfS-D™), and Founder of the Self-Development Academy Limited.

For a limited time, Tayo is available to speak to your group or organization for a moderate fee. Send e-mail to tayo@tksola.com.

Visit www.tayosolagbade.com for more.
